# Project details

As a mid-sized technology services and outsourcing provider, YASH Technologies delivers the solutions and services that optimizes, extends, and maintains our customers' SAP investments. Discover why leading global customers partner with us for their needs in the areas of SAP. At YASH, we closely monitor the technology trends through our close association with best in class research organizations such as Gartner, Forester, IDC, CIO etc. Based on the needs of our customers and prospects tied to industry adoption of these technologies, we create focused practice areas within YASH to support them. These practice groups drive the need to form alliances with industry leading technology firms such as Microsoft, IBM, HP, CISCO, SAP, Oracle and several others. Being a partner of choice and reaching highest levels of partnership with these companies, allows YASH access to the latest software, training and proficiency which eventually translates as tangible business value to our customers.

**We have delivered successfully for the following Requirements:**

 Application Development Technologies

Mobile Apps Technologies

Infrastructure and Networking Technologies

Data Ware housing BI/BW Solutions
